

## Section 13: Transporting Hazardous Materials

### 1. General Information

- 1.1 This section references regulatory requirements and corporate policies designed to protect employees, the public, and the environment; to promote safe transportation of hazardous materials; and to enhance compliance with state, federal, and international transportation laws and regulations.
- 1.2 The policies and procedures in this section apply to contractors, subcontractors, and vendors who transport or ship materials to, from, or within EQ facilities. Deviation from these policies and procedures is not permitted without approval from the EQ EHS manager.

### 2. Transportation Procedures

- 2.1 Contractor employees involved in transporting or shipping hazardous materials are responsible for regulatory compliance and for promoting the safe transportation of dangerous goods.
- 2.2 Only employees who have completed the appropriate DOT training may package and prepare hazardous materials for transport.
- 2.3 Contractors that ship hazardous materials are responsible for complying with site-specific procedures and for ensuring that their employees complete the appropriate DOT training.
- 2.4 Refer to applicable site-specific procedures for more information regarding dangerous goods safety, hazardous materials services, and hazardous waste operations.
